

Koala Conservation & Climate Change

Saturday, 9/7/24 • 2:30 PM • Community Room

Koalas are not bears, but marsupials, and are an endangered species. **Fred Bercovitch** will discuss how climate change is impacting their behavior and ecology. Dr. Bercovitch is a wildlife conservation biologist with a PhD in biological anthropology from UCLA and has studied koalas in Australia and in captivity. He has published over 150 scientific articles, as well as contributing to San Diego Zoo's *ZOONOOZ* magazine, *Mongabay*, and *USA Today*.
